2015/16

QHS Events from April 1st 2015 – April 1st 2016

- April 9th 2015 TIB/ WPCIB Baby Welcome: 50+ people attended
- April 22nd 2015 Everything Her Day: 51+ people attended
- May 12th 2015 SIB Baby Welcome: 60+ people attended
- May 27th 2015 QHS TIB/ WPCIB Kindergarten Day: 24 children attended and approximately 20 adults attended
- May 28th 2015 SIB Kindergarten Day: approximately 80+ people attended
- June 19th 2015 Aboriginal Walk Day at QHS: 10 people attended
- August 6th 2015 TIB Health Fair: 110+ people attended
- August 13th 2015 SIB Bike Rodeo and Family Fun Day: 60+ people attended
- September 17th 2015 SIB Health Fair: Approximately 150 people attended
- September 28th & 29th 2015 TB Skin test Taco Day: 71 people were tested
- October 29th 2015 Mammogram day @ QHS: 17 people attended
- November 2015 Movember Men's Night: 25 Men attended
- March 15th 2016 Women's Wellness day (PAP Day): 16 Women attended (every 6 months)
- March 30th 2016 Everything Her Day: 60+ women attended (see comment report)
- April 1st 2016 SIB Bike Rodeo: 78+ people attended

Q'WEMTSÍN
HEALTH SOCIETY

HOME AND
COMMUNITY CARE

STATISTICS

2015/16

Q'wemtsin Health Society - Home & Community Care – 2015 / 2016

- 149 clients have received care through QHS (TIB 106, Skeetchestn 31, Whispering Pines 7 and QHS 5). There were a total of 2634 client encounters between the three communities. Some of these clients are seen regularly and others as needed. Each visit is tailored to the client's individual need (anything from monitoring, to teaching, to listening and hearing what the client really needs). The majority of these clients have chronic conditions. There are also clients that have acute conditions ie. Clients with pneumonia or fractures that just need short term assistance. We also work in conjunction with the IHA Wound Management so clients can be discharged from hospital earlier or stay out of the hospital.
- 17 clients have received regular home support from the personal care workers. There are also a few clients who have periodic home support. An example of this would be a client with an acute/chronic condition who is hospitalized, and receives home support upon discharge until they are able to be independent once again.
- 24 clients are on the Medic Aid Program – This is a personal help button system.
- Frozen Meal Program – These meals were provided by the Aboriginal Agriculture Education Society BC which has been suspended since the summer of 2012 by the Aboriginal Agriculture Education Society BC). Since the suspension of this program we refer clients to "Meals on Wheels" or "Better Meals".
- Tub Program – 10 clients take part in the Tub Program. There are clients from each community that utilize this program.
- 47 clients take part in the Foot care Program. There are clients from each Community utilizing this program.
- QHS has a registry of 19 chronic conditions. Cardiovascular disease, diabetes and severe forms of arthritis are the most commonly seen conditions in our Communities. The majority of clients, with a chronic condition, usually have more than one.

Chronic Disease Management:

- Monitoring with regards to prevention is done regularly. The clients are a driving force behind the care that they receive. When a change is noted the clients, with their permission, have been referred to a variety of health care professionals. Referrals have been made to RIH ER, General Practitioner/Nurse Practitioner,

Specialists, Diabetic Education, Dietician, IHA Home Health, Occupational Health, Physiotherapy, Naturopath, Massage Therapy, Mental Health, Geriatric Outreach, Acquired Brain Injury, Podiatry and Dental. Some of the clients take the information on their own to their Health Practitioner.

Chronic Disease Management (continued):

- Clients are provided with Client information Sheets so that if they need to seek medical attention, their medical history and current allergies and medications are listed. These information sheets are utilized by paramedics if called to the client's home as well as ER Doctors and Nurses. These information Sheets are also utilized by the rest of the Health Care Team at QHS.
- Referrals to Balanced Foot Care or Progressive Step. Proper footwear helps to prevent falls and increases client comfort.
- Referrals to People in Motion for disability parking passes (usually clients are given information on how to contact the service themselves).
- Injury Prevention – a great deal of work is done with the Housing Departments to provide a safe environment for the clients. Some of these included referrals to the Occupational Therapist for safety and equipment need recommendations.
- Referrals to QHS programs such as Mental Health (Picku Multani), Dietician (Ellen Duncan), Naturopath (Melissa Bradwell), Massage Therapist (Meaghan Atchison), Immunizations (CHN) and Dental Hygienist (Crystal Chartrand).
- Hearing Testing. A list of Kamloops Hearing clinics has been compiled for clients to choose a clinic to have their hearing tested as needed.
- Medic Alert – any clients with health issues including allergies may send away for a Medic Alert that indicates if they have allergies and lists medications and any diagnosed medical conditions.
- Ensure – 32 clients that have accessed the Ensure program. Clients that require dietary supplement based on Medical needs have received a prescription from their Doctor and approval from their Band.

SKEETCHESTN STATS FOR:

- **Pre/Post Natal Care**
- **Communicable Disease Control (CDC)**
- **Skeetchestn Community School**
- **Screening & Community Events**

April 1st, 2015 – March 31, 2016

Diane Procter, CHN

Skeetchestn

445 members served

1550 encounters

Circle of Life Program

12 on CPNP program

6 babies born

4 breastfed at birth

4 babies born between 5lb 9oz to 8lb 11oz

2 babies born more than 8lbs 11oz

4 babies breastfed at 6 months

Communicable Disease Program

142 members immunized

109 influenza shots given

14 TB skin tests SCS

Skeetchestn Community School

Kindergarten

4 kindergarten boosters given. 2 booked for summer 2016.

Grade 6

4 grade 6 students received immunizations. 100% of population.

Grade 9

1 Grade 9 student immunized. One booked summer 2016.

Other

Other :

Skeetchestn Health Clinic and Community

Bike Rodeo. August 13th, 2015 33 participants.

Bike Rodeo. April 1st 2016. – 41 participants. Assisted with helmet fittings. Rural RCMP members also in attendance.

September 9th, 2016. FASD awareness day. 25 people attended.

Monthly Families and Tots group. Well attended with a great number of dads attending.

Kindergarten Day - May 28th, 2015 and May 19th 2016. Attended by preschool and K-2 class. Hearing screening with two referrals in 2016. No referrals for hearing follow-up in 2015.

Mobile mammogram – 12 women screened.

Baby Welcome Ceremony – 6 babies wrapped 2015

Skeetchestn Community School

Girls group in school. Targeting girls grades 2-4. Topics include hygiene, relationships, boundaries, friendships. 10 group sessions. During classroom hours to accommodate students from out of community.

Sexual education and STI's to grades 8-10.

Handwashing K-2.

Body parts and personal safety K-2.

Anaphylaxis teaching staff.

Diabetic teaching to staff and students grade 2-4 class.

Attended Skeetchestn Health and Career day April 13th. Cholesterol and BP screening done. Screened approximately 40 kids and talked about diabetes and blood sugar.

Miscellaneous

Presented with Sarah Bennett, CHN at Everything Her Day on HIV/Aids and Hep C.

Attended Annual Health Fair and provided screening for cholesterol, blood sugar and blood pressure.

Attended annual nursing conference, annual CDC workshop and FASD workshop through UBC interprofessional education.

Completed cultural competency training online.

Currently recertifying for immunization certification (every 3 years).

Question 35

HIV/AIDS

- 1- Presentation and information booth at "Everything Her Day"
- 2- 2 school education sessions

Tuberculosis

- 1- Community school screening – teachers

Immunization

- 2 – info at community health fairs
- 1 – FNHA workshop for education on immunization and other CDC topics
- 1 – Annual influenza training
- 3 - info in QHS monthly newsletter
- 1 – info in Little Owl newsletter
- 4 – Families and Tots group discussions about immunizations
- 10 – monthly teleconferences CDC

Pandemic Planning

- 1 – emergency preparedness committee meeting attended by CHN's

Infection Prevention and Control

- 1 – handwashing presentation in school
- 2 - Posters educating students about handwashing in school

2015/2016

TIB & WP STATS FOR:

- **Pre/Post Natal Care**
- **Communicable Disease Control (CDC)**
- **Sk'elep School of Excellence**
- **Screening & Community Events**

Stats (April 1, 2015-March 31, 2016) from Sarah Bennett, CHN

TIB /WP - 1657 encounters, 458 members served

TIB - Circle of Life

4 babies born

4 breastfed at birth

1 babies between 5 lbs 10 oz. – 8 lbs 11 oz. at birth

3 babies over 8 lbs. 11 oz. at birth

0 baby under 5 lbs. 9 oz. at birth

9 prenatal families currently on program

WP - Circle of Life

1 babies born

0 breastfed at birth

1 baby between 5 lbs 10 oz. – 8 lbs 11 oz. at birth

No prenatal families on program at this time

Total Participants

28 participants in the COL program in total for April 2015-April 2016 from TIB and WP (not counting Skeetch) (2 are duplicated due to having two children on program under 18 mos of age)

1 client under the age of 19 on the COL program for TIB and WP

42 adults and children attended play group over the year, with an average attendance of 6 attendees per play group session (play group is every Wednesday from 10 am – 12 pm)

Communicable Disease

All Vaccines

354 Members immunized at TIB

23 Members immunized at WP

38 at Q'wemtsin Health Society (staff and clients whose charts do not have a community attached)

Influenza Vaccines

240 Members provided with influenza vaccine at TIB

17 Members provided with influenza vaccine at WP

20 Q'wemtsin Health Society (staff and clients whose charts do not have a community attached

TB skin tests

84 Members provided with TB skin tests (TIB) (Christine and myself held a TB screening clinic at TIB, WP had one the previous year)

2 Members provided with TB skin tests (WP)

20 staff provided with TB skin tests (QHS)

(See immunization coverage report for other stats regarding immunizations)

Skelep School

I have been assisting Christine with getting all children caught up with their immunizations at Skelep School throughout the year. Please see Christine's stats for more details regarding immunizations at Skelep.

Little Fawn Daycare (Received folder in Sept. 2015 explaining role of CHN and offering services)

Vision screening from IHA (public health vision screening program)

Immunizations, Influenza vaccines, and TB skin tests done for daycare staff

Hand washing with the children in the 3-5 room

Puss and Boots Daycare (Received folder in Sept. 2015 explaining role of CHN and offering services)

Little Fawn Nursery (Received folder in Sept. 2015 explaining role of CHN and offering services)

Vision screening from IHA (public health vision screening program)

Children will get hearing screening from IHA audiology at Kindergarten Day

Immunizations, Influenza vaccines, and TB skin tests done for Nursery staff

Hand washing with the children

Kindergarten Day

24 children attended (including LFN, LFD and Puss and Boots Daycare) at kindergarten day on May 27, 2015 (audiology (IHA), COHI, immunizations, development screening)

2016 kindergarten day was done on May 18, 2016 – 31 children attended with 4 referrals to physicians for ear wax concerns, 6 referrals to audiology for further hearing testing, 4 referrals to speech and language.

Miscellaneous

Assisted with Skeetchestn influenza clinic, Diane and myself presented at the Everything Her Day Workshop on HIV/AIDS and Hep C, participated in the annual health fairs for all communities with booths on immunizations, and cholesterol/blood sugar/blood pressure assessments

Training – currently getting re-certified in immunization competency (due every 3 years), attended the FNHA communicable disease conference, attended the smoking cessation Quit Now training in Kamloops, completed the Cultural Sensitivity Training online, registered to take the Douglas College Breastfeeding Course for Health Care providers in the fall of 2016

Community Based Reporting 2015-2016

Question 35 - Awareness and Education Activities Description

HIV/AIDS – Blood borne and sexually transmitted infections:

4 - school education sessions

1 – presentation and information booth at “Everything Her Day”

Total 5

Tuberculosis:

2 - information sent home with students at schools

2 - community wide screening and information days

Total 4

Immunization:

2 – information booth at community health fairs regarding immunizations

1 – 3 community health nurses attended the FNHA workshop for education on immunizations and other CDC topics

1 – 5 nurses attended the Interior Health Authority influenza training

10 – monthly nurses teleconferences attended by community health nurses

2 – discussions about immunization at play groups in the communities

2 – posters promoting immunization displayed in the health centre

3 – information in the QHS monthly newsletter

2 – information sent home with students at schools

Total 23

Pandemic Planning:

1 – emergency preparedness committee meeting attended by CHN's

**Title: Q'wemtsín Health Society
Community Injury Report**

Period covered by the report: 2015/2016

Date: March 17, 2016

Prepared by: Lee-Anne Deneault

Prepared for: Q'wemtsín Health Society

Data Collection Network

Q'wemtsín Health Society IP clerk along with a handful of QHS staff have been collecting injury surveillance forms for this fiscal year. There are less people collecting forms this fiscal year compared to last fiscal year. It is also noted that the only time forms are handed in is during an injury surveillance contest.

Injury Prevention Activities/Resources (accessed/distributed/promoted)

The Secwepemc Nation Injury Surveillance Program has been promoted in various ways:

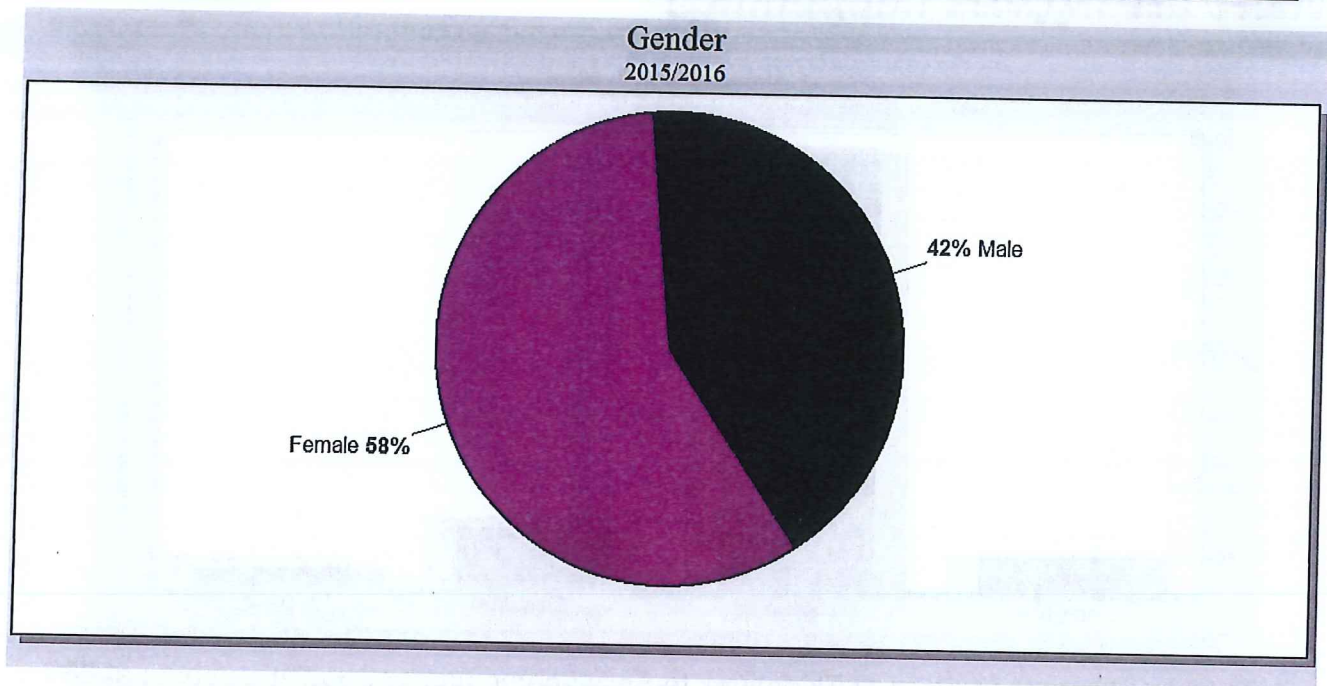

- Injury Prevention Clerk sends emails to staff and band workers as a reminder to fill out injury surveillance forms.
- The program has been promoted through our Q'wemtsín Health Society newsletter. The newsletter is distributed to our three communities Skeetchestn, Tk'emlúps te Secwepemc and Whispering Pines/Clinton Indian Band.
- Used the QHS website as a promotional tool.
- To get people filling out forms and interested in the program, we hosted an injury surveillance contest which was open to all three communities. This year's winner was a Tk'emlúps te Secwepemc band member. —————>
- Had an information session for three communities at Hoodoos Restaurant.

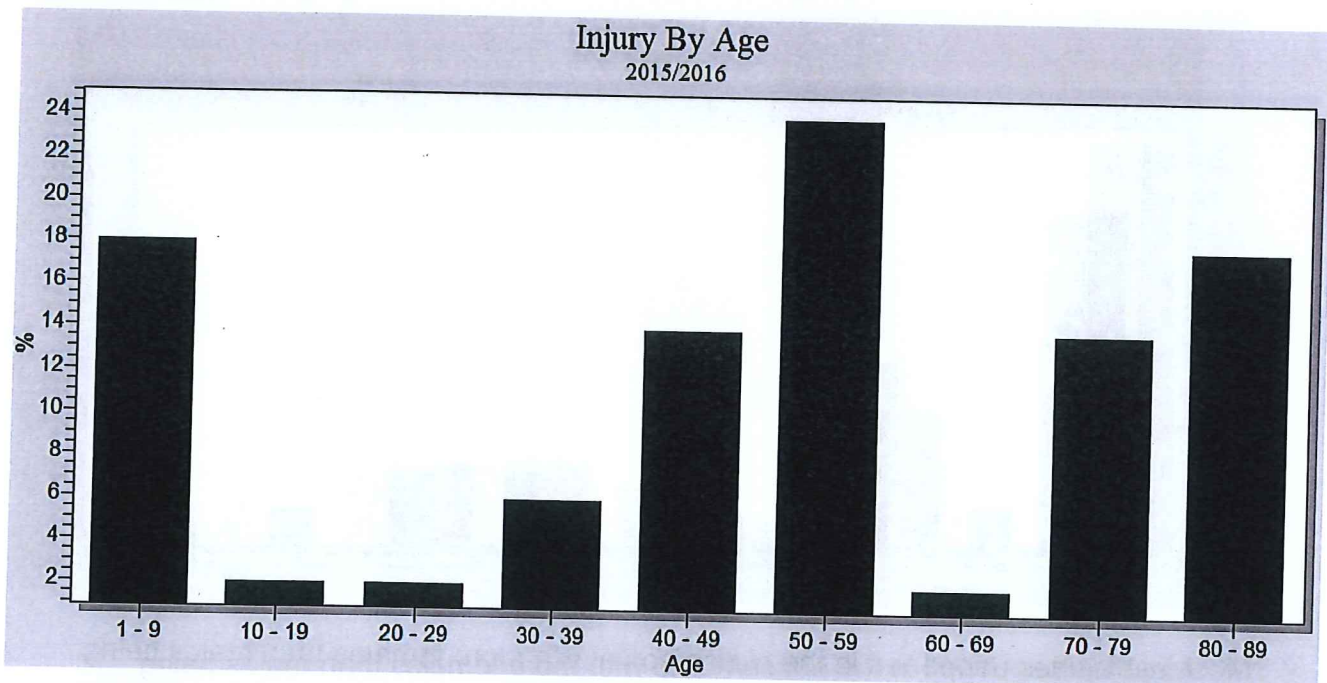

Injury Prevention Training / Planning / Staff Development

- Presently there is only one Injury Prevention Clerk. QHS invited other communities to train clerks as well as keep their own data information but they were unable to commit.
- There is a need to educate communities about the program as well as benefits of the program for each community.

Who is being injured?

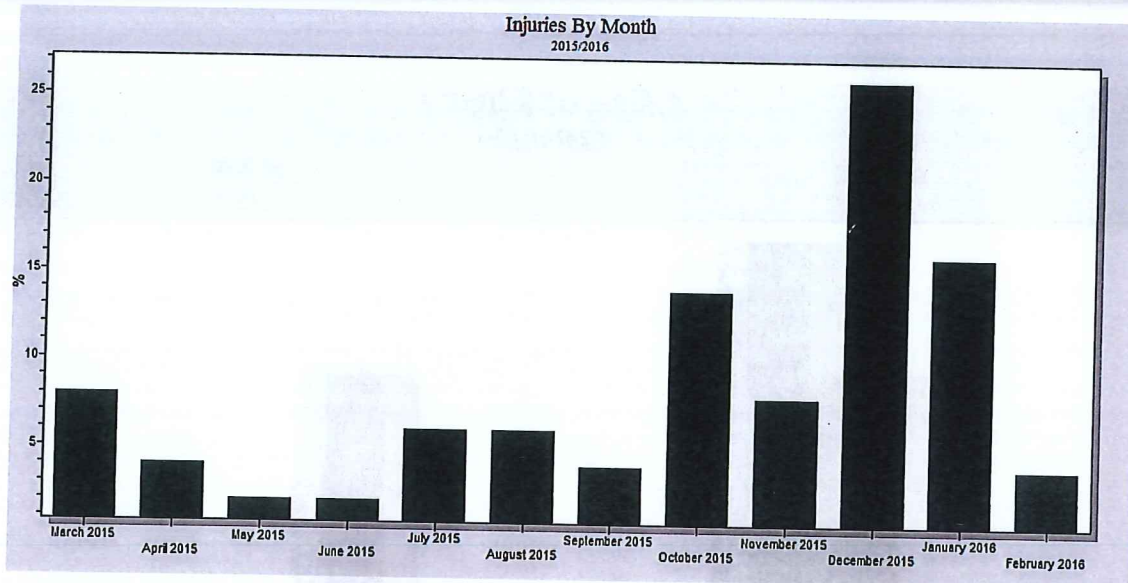

- ✓ Overall for this fiscal year 2015/2016 the total number of injuries recorded for communities were 50
- ✓ 58% of females and 42% of males were injured, showing more females than males being injured for this fiscal year

- ✓ This fiscal year the age group 50-59 years was among the highest that were injured.

When are injuries occurring?

- ✓ Most injuries occurred in the month of December 2015 at 26%. There were 13 cases in total.
- ✓ The second most common time for injuries per month was in January 2016 at 16%. There were 8 injury cases in total.

- ✓ For this fiscal year most injuries took place between the hours of 8:00am to 12:00pm and 12:00pm to 4:00pm

What caused the injuries?

- The leading cause of falls were due to "medical conditions"
- The second leading cause of falls were due to "natural terrain"

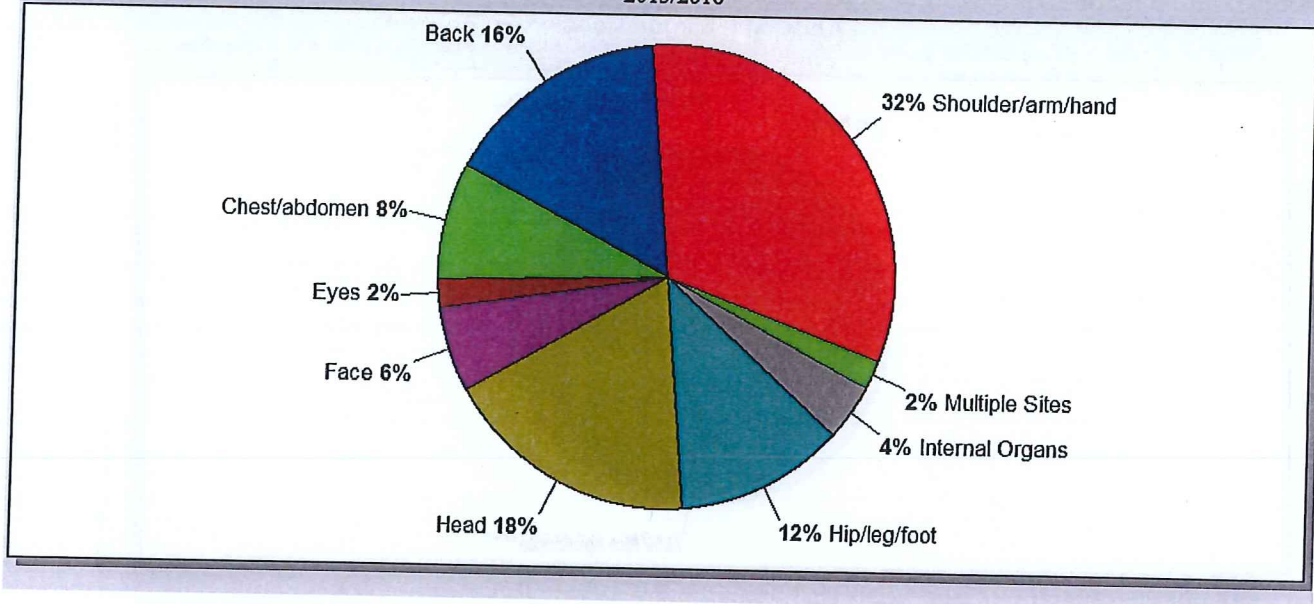

- The leading cause for "person or object" were due to injuries from "collision with person or object"

Injuries by Body Region & Type of Injury by Gender

Most Serious Injury by Body Region
2015/2016

✓ Injuries by body region show where an individual is getting injured. The majority of body injuries happened on peoples shoulder/arm/hand at 32%

Type of Injury by Gender
2015/2016

✓ For Bruising/Scrapes there were 9 cases at 32% in which more females than males were being injured.

Your Top Injury Priorities

Observations

For this fiscal year 2015/2016 there was only 50 injuries recorded, this is for all three communities. For last fiscal year there were only 42 injury forms collected. The data numbers show a need to re-educate QHS staff, band workers and our three communities Skeetchestn, Tk'emlúps te Secwepemc and Whispering Pines/Clinton Indian Band.

Getting people interested in this program and filling out injury surveillance forms has been a challenge and continues to be challenging. To date here is a list of various activities the IP clerk has done within three communities:

- ✓ Hosted an info session for three communities
- ✓ Injury surveillance contest which was open to all three communities
- ✓ Sent reminder emails to QHS staff and band staff from three communities
- ✓ Hosted Bike Rodeos for communities
- ✓ Advertised in the QHS newsletter and website as well as, Skeetchestn Indian Band community newsletter called The Little Owl and Tk'emlúps te Secwepemc website.
- ✓ Distributed the Secwepemc Nation Injury Surveillance quarterly newsletter to three communities
- ✓ Distributed Secwepemc Nation Promotional material to three communities
- ✓ Provide home safety for elders and people with disabilities by doing home assessments and supplying them with bath mats, first aid kits, night lights, etc.
- ✓ Provide Medic lifeline to home care clients
- ✓ Regularly assess potential issues to prevent injuries at QHS clinics and address each issue as per recommendations
- ✓ Attend workshops to update education with respect to injury prevention
- ✓ During boys and girls group provide education to children about child safety at home/school

<input type="checkbox"/> Chemical <input type="checkbox"/> Electricity <input type="checkbox"/> Explosion <input type="checkbox"/> Flames <input type="checkbox"/> Hot object or liquid	<input type="checkbox"/> ATV <input type="checkbox"/> Bicycle/Tricycle <input type="checkbox"/> Boat/Canoe <input type="checkbox"/> Car <input type="checkbox"/> Motorcycle <input type="checkbox"/> Snowmobile <input type="checkbox"/> Train <input type="checkbox"/> Truck/Van PERSON INJURED was: <input type="checkbox"/> Driver/Rider <input type="checkbox"/> Passenger <input type="checkbox"/> Pedestrian (person walking)	<input type="checkbox"/> Animal kick <input type="checkbox"/> Bite (animal-insect-person) <input type="checkbox"/> Bullet <input type="checkbox"/> Collision with person or object (include assault) <input type="checkbox"/> Knife or other weapon <input type="checkbox"/> Power tool/other household implement <input type="checkbox"/> Sexual assault	<input type="checkbox"/> Alcohol <input type="checkbox"/> Gas <input type="checkbox"/> Household cleaner or chemical <input type="checkbox"/> Illicit drugs <input type="checkbox"/> Over the counter drug <input type="checkbox"/> Plant/Bush <input type="checkbox"/> Prescription drugs	<input type="checkbox"/> Bathtub-Sink-Toilet <input type="checkbox"/> Furniture <input type="checkbox"/> Icy or wet surfaces <input type="checkbox"/> Medical condition <input type="checkbox"/> Natural terrain (including roots-rocks-trees) <input type="checkbox"/> Playground equipment <input type="checkbox"/> Sports <input type="checkbox"/> Stairs or steps	<input type="checkbox"/> Cold <input type="checkbox"/> Heat	<input type="checkbox"/> Drowning <input type="checkbox"/> Foreign body in natural opening <input type="checkbox"/> Hanging

☐ **OTHER** for any of the above causes of injury (please specify)

NATURE OF INJURY (body region codes)

- 1) Teeth
 - 2) Eyes
 - 3) Head
 - 4) Face
 - 5) Neck
 - 6) Chest/Abdomen
 - 7) Back
 - 8) Shoulder/Arm/Hand
 - 9) Hip/Leg/Foot
 - 10) Spinal cord
 - 11) Internal organs
 - 12) Multiple sites (please specify)
- Use body region code #s opposite type of injury →
- 13) In your opinion, which was the **MOST SERIOUS** injury? (please specify)

Code #s Check **MOST SERIOUS (✓) TYPE OF INJURY**

- ☐ Amputation
- ☐ Bruising/Scrape
- ☐ Burn
- ☐ Choking, unable to breath
- ☐ Concussion
- ☐ Head injury
- ☐ Crushing injury
- ☐ Cut/Laceration
- ☐ Dental injury
- ☐ Dislocation
- ☐ Fracture (broken bone)
- ☐ General or multi-system trauma
- ☐ Hemorrhage or damage to blood vessels
- ☐ Inflammation, swelling, pain
- ☐ Penetrating wound/Puncture
- ☐ Poisoning
- ☐ Sprain/Strain

Where was the form completed?

- ☐ Ambulance
- ☐ Band/Council Office
- ☐ Cariboo Memorial Hospital
- ☐ 100 Mile House Hospital
- ☐ Daycare
- ☐ Fire Station
- ☐ Health Centre
- ☐ School (please specify)
- ☐ OTHER (please specify)

Were there OTHER PEOPLE INJURED in this injury incident?

☐ YES ☐ NO ☐ Unknown

If YES – How many were injured?

(please indicate if number is unknown)

OUTCOME – check (✓) one only:

- | | | |
|----------------------------------------------------------|-----------------------------------------------|-------------------------------------------------|
| <input type="checkbox"/> NO treatment-released | <input type="checkbox"/> SELF-treatment | <input type="checkbox"/> DEATH |
